

A5 HD

HDSDI Ground Isolator

LMP
Lux Media Plan
/

This simple low cost device has been designed to provide signal isolation of SMPTE 292M compliant signals, eliminating group loop effects, often associated with fixed and temporary HDTV installations.

Features

- incredibly small
- no power supply needed

Technical Specifications

Signal	SMPTE 292M
Frequency range	30 - 800MHz
Return loss	>15dB up to 740MHz
Insertion loss	<1,4dB at 740MHz <3dB at 1480MHz
Impedance	75Ω
DC Isolation	400V

Physical Specifications

Dimensions	68x Ø27 mm
Weight	40 g
